EXTRAORDINARY	10	Spectacular ingenuity and engineering
ENHANCING ELEMENTS	10	Overall effect enhanced by participants, pyrotechnics, etc.

8.7.2 Scoring Methodology

The determination of awards is at the sole discretion of the judging panel and they are free to utilize the numerical scores along with their individual perceptions. There are three categories the Judges will consider when evaluating a float, Float Design, Floral Presentation and Entertainment Value, see Appendix F for Final Judging Logic. For each float, Judges are asked to provide a score from 1 (low) to 10 (high) for Float Design and Entertainment Value. Floral Presentation will have a scoring range of 1 (low) to 20 (high) for the Floral Design, Floral Usage, Rose Usage and Color Harmony criteria. The Second Round scores from the three judges for all criteria are added together and then averaged based on the number of criteria used for each individual award.

Scores from the First Round are not determinative of final awards except in breaking ties.
